

# CONTACTLESS TEMPERATURE MEASUREMENT

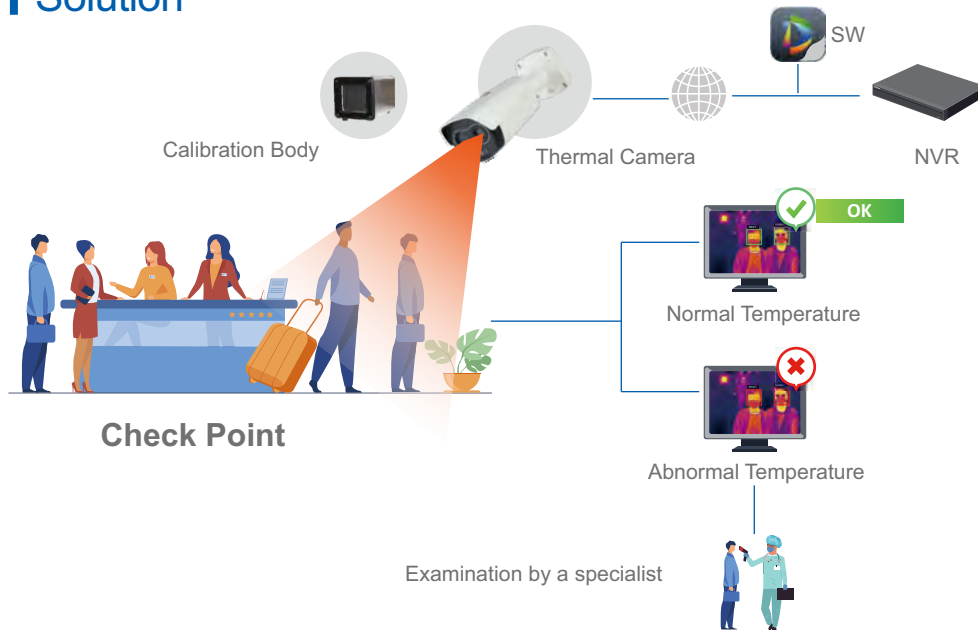

*Efficient, Visible & Real-time*

## Thermal Pro

We launch the industry's latest thermal camera, which is capable of highly accurate body temperature measurement  $\pm 0.3^{\circ}\text{C}$ . With built-in AI algorithm, it can measure multiple persons from up to 3-meter distance, enabling fast and non-contact access.

## Solution

- Accurate temperature measurement, safe and effective
- Non-contact screening, fast pass
- Multi-person measurement, efficient access
- Visual abnormal alert to facilitate back-tracking
- Non-mask detection for the intelligent control

## Possibilities of application

Educational Institutions

Factories

Commercial Building

Shopping Malls

## Configuration Solution Thermal Pro

### Camera + Calibration Body

Thermocamera: 400\*300px  
NETD < 40 mK  
Dual camera in visible spectrum  
Light alarm with speaker  
Temperature accuracy  $\pm 0.3^{\circ}\text{C}$

### NVR for 8 Entrance Gate

Temperature Alarm  
Statistical report and export  
8 channels motion detection  
8 channels face recognition  
24" monitor

### Software

Device Management  
Real-time temperature display  
Fire Detection  
Abnormal Temperature Alarm  
Multiple clients login  
Platform for integration into existing systems

### Entrance Gate (optional)

Elimination of transition outside the measured area  
Light construction  
Fast-Fold  
Warning Alarm included

+ training included  
+ support 5 days a week from 8am to 4pm
